

Core metal comparisons

A Cu – Cd

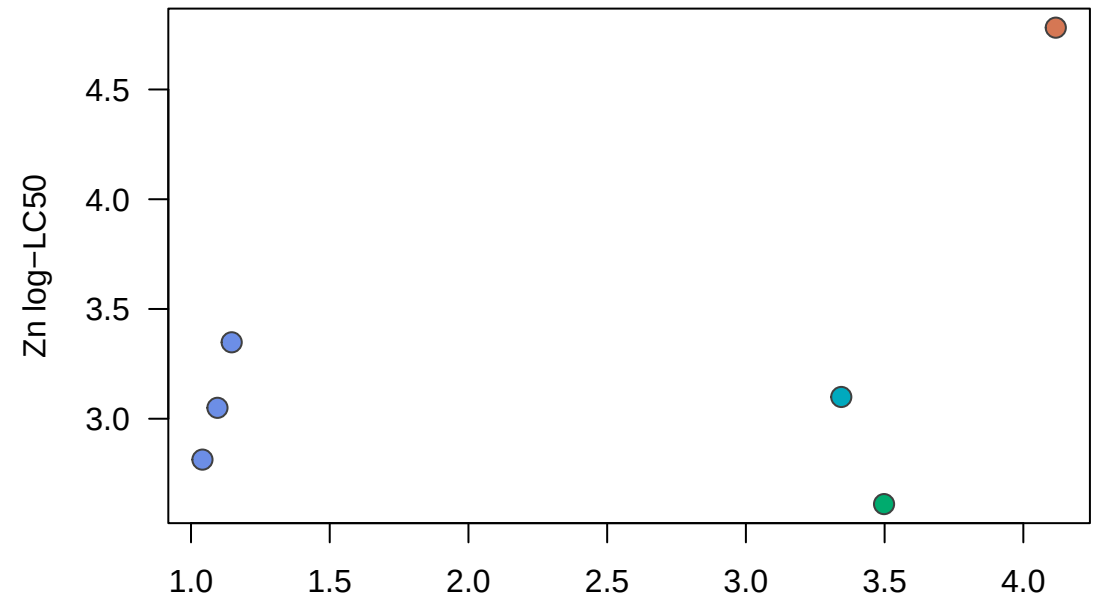

Equal-publication $r = 0.709$

Cu log-LC50
21 matched comparisons | 10 publications

B Cu – Zn

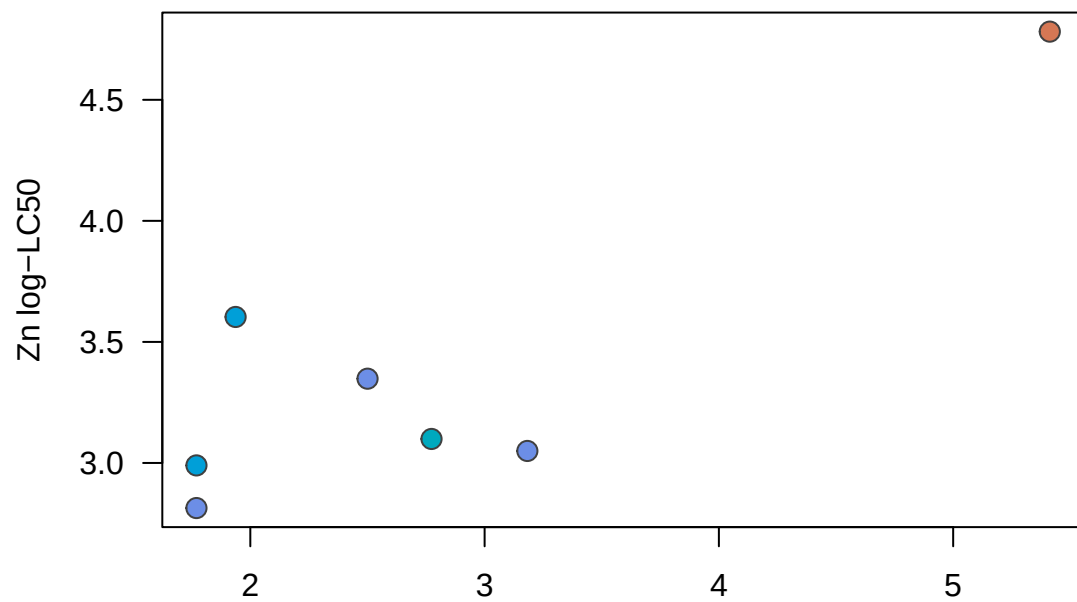

Equal-publication $r = 0.441$

Cu log-LC50
6 matched comparisons | 4 publications

C Cd – Zn

Equal-publication $r = 0.904$

Cd log-LC50
7 matched comparisons | 4 publications

Natural-log LC50; concentrations expressed in micromol/L before transformation.
Each point is a matched comparison within one publication. Colours identify publications.
